

Safety & Security

NATS

Alarm kits

- Wide choice of options for complete protection or increased comfort.
- Excellent price/performance ratio.
- High reliability.
- Easy fitting.
- Manuals included.
- Insurance benefits obtainable.
- Part of the NATS program.
- When required, the vehicle specific installation kit is mentioned with the applications.
- CDL = Central Door Lock.

Safety & Security

NATS

Description	Part Number	A-DC	E-DC	DC	Origin	E-RRP (Euro)	Start Of Sales
Basic alarm kit	KE254-99901	9	G	95S	IT	120.60	05/95

• The 'Basic' module of NATS gives you excellent all-round protection at a competitive price, especially as part of your new car deal.
 • Applicable to vehicle with NATS II transponder key immobilisation, except for P10 with factory installed key-less entry.
 • Basic alarm system with glass break sensor, perimetric detection, rolling code, blinker activation/indication, flashing LED on dashboard, two long life remote control keys, master key for programming new keys, alarm signal via car horn.
 • Upgradable with level reference monitor, radar module, electronic siren or battery back-up siren, and (if applicable) driver door kit.
 • The system automatically incorporates key-less entry. For some models an optional driver door kit is required. See application information for specific partnumber (Not required: key-less entry is automatically included. Not available: key-less entry is not possible for this model).
 • For other upgrades, please consult the Alarm Upgrade overview.
 • Fitting times are excluding the mounting of the (optional) driver door kit.

NATS

Description	Part Number	A-DC	E-DC	DC	Origin	E-RRP (Euro)	Start Of Sales
Standard alarm kit	KE254-99921	9	G	95S	IT	173.10	05/95

• The 'Standard' package gives you protection from trunk to hood by building on the functions and benefits of the 'Basic' package.
 • Applicable to vehicle with NATS II transponder key immobilisation, except for P10 with factory installed key-less entry.
 • Standard alarm system with glass break sensor, perimeter detection, rolling code, blinker activation/indication, flashing LED on dashboard, two long life remote control keys, master key for programming new keys, alarm signal via 120dB electronic siren.
 • Upgradable with level reference monitor, radar module, battery back-up siren and (if applicable) driver door kit.
 • The system automatically incorporates key-less entry. For some models an optional driver door kit is required. See application information for specific partnumber (Not required: key-less entry is automatically included. Not available: key-less entry is not possible for this model). • For other upgrades, please consult the Alarm Upgrade overview.
 • Fitting times are excluding the mounting of the (optional) driver door kit.
