## Trunkliners

- Covers the complete trunk floor.
- Protects against getting dirty and wet.
- Easy to install and remove.

• Soft type trunkliners are foldable and have an integrated anti-slip surface and have a 5 cm. high border for optimal flexibility and protection.

Cleaning: We recommend cleaning with regular household detergents, using sponges or cloths, etc. A high pressure water cleaner can be used but detergents and warm water always have better results because the dirt is physically bound and removed.
